

CITYPLOT.ORG: Growing edible cities

Cityplot is a collective of urban food growers, educators and permaculture designers

CITY
PLOT
.ORG

We encourage city dwellers to grow their own vegetables, herbs, edible flowers, and fruit and give them the tools to do so. We believe that it is possible to grow healthy organic food on all scales in and around the city: from private growing spaces to community gardens, from schools and restaurants to large-scale urban food growing projects.

Workshops & Trainings - Community Gardens - Restaurant Gardens -
School Gardens & Educational Programs - Private Gardens - Bike Tours & Outings
Community Supported Agriculture - Permaculture Consultations
